## Education

---

### The University of The East

Bachelor of Science in Computer Science

Expected Graduation: June 2026

**Relevant Coursework:** Data Structures & Algorithms, Software Engineering (Agile, UML), Web Development, Machine Learning Fundamentals, AI & OCR Systems, Database Concepts

## Work Experience

---

- **Lead Developer – Photon (AI Image-to-Text Code Assistant)** Sep 2024 – Nov 2025
  - Developed an OCR-based system that extracts Python code from images, improving code digitization accuracy and usability
  - Implemented AI-powered code suggestions and auto-formatting to reduce syntax errors and improve readability
  - Led feature planning and coordination for a small team using Agile practices, ensuring on-time delivery of core features
- **Digital Media & IT Intern - Lifestyle Travel** June 2025
  - Designed infographics, posters, and short-form videos that supported social media marketing campaigns
  - Resolved technical issues across digital tools and platforms, reducing downtime for the team
  - Assisted in account recovery and access troubleshooting, restoring secure access to company social media accounts
- **Freelance Game Developer & Pixel Artist – Upwork** May 2022
  - Delivered pixel art UI and in-game assets for game projects, meeting technical and visual specifications
  - Assisted with gameplay scripting and feature implementation using Unity and Bezi
  - Supported project workflows through Git-based collaboration and iterative development

## Projects

---

- **Michelin Guide Philippine Website**
  - Built a responsive web application to display and filter Michelin-listed restaurants
  - Built responsive layouts, service pages, and modern UI components
- **Techinee Art Studio (In-Progress)**
  - Developed an art portfolio and e-commerce with filtering, wishlist, and shopping cart features
  - Built using HTML, CSS, JavaScript, and Firebase for dynamic content and user interaction
- **OC Lawnmowers Website**
  - Developed a responsive business website for a lawn mower sales and repair company
  - Implemented contact form automation and service inquiry for customer communication
- **Pinoy Travel – Interactive Tourism Website**
  - Developed a responsive tourism website highlighting Philippine destinations using HTML, CSS, and Bootstrap
  - Implemented structured navigation and dynamic sections using HTML, CSS, and JavaScript

## Skills

---

- Programming Languages: Python (Proficient), JavaScript, Java, C++
- Web Development: HTML, CSS, Bootstrap, React, Flask
- Data, AI & Databases: OCR Systems, Pandas, TensorFlow, MySQL, Database Concepts
- Tools & Methodologies: Git, GitHub, VS Code, Agile, UML, REST APIs
